

Moon Lite

Birgit Lu Mazen

*In my dreams,
the moon comes in all colours,
green, blue, yellow, turquoise,
white or pink. My fantasy?
It is clouded,
overgrown with plants,
an almost tangible earthly object,
ephemeral at night.
A trick on my eyes?
New luring moons rise,
shedding magic, bright and shiny,
entrapping my illusions,
taking me in its tales,
a fabrication,
real, virtual, surreal,
just a sight.*

About the artist

I am a visual artist from Munich, Germany. My art incorporates themes of place and environment, identity and memory, expressed in photography and video.

After university and travels in Europe, North America and Asia, I attended masterclasses at ICP, Magnum, Oeildeep and Salzburg Summer Academy and took part in residencies at the School of Visual Arts in New York and the WSG in UK in 2021 and 2023.

I exhibited in international art festivals, institutions and galleries and won artistic prizes such as Px3, Premio Arte Laguna, Lynx or South West German Price.

My hand-made book „False Moons“ was a finalist in the 9th Rendez-Vous-Images festival 2020 in France. Selections of my photos were published in magazines, newspapers and books.
